⚙️ 1–2 weeks before sowing

Application rate | per ha

Water	200 l
AKRA Stroh R+P+K	1 l
AKRA MSB	1 l
AKRA Sulpur+	3 l
AKRA WD	1 l

INFO

- ⚙️ Work in thoroughly.
- ⚙️ The pH value of the spray solution should be adjusted to 5.5 with citric acid.
- ⚙️ The addition of **AKRA** foliar fertiliser can and may reduce the pH value of the spray solution.
- ⚙️ The dosage of **AKRA** foliar fertiliser must be adjusted to the quantity of water used.
