<b>AKRA</b> MSB	1 l
<b>AKRA</b> Sulpur+	3 l
<b>AKRA</b> WD	1 l

## INFO

- ⚙️ Work in thoroughly.
- ⚙️ The pH value of the spray solution should be adjusted to 5.5 with citric acid.
- ⚙️ The addition of **AKRA** foliar fertiliser can and may reduce the pH value of the spray solution.
- ⚙️ The dosage of **AKRA** foliar fertiliser must be adjusted to the quantity of water used.
